

"MOUSTAKALLIS"

A PART OF POLIS HISTORY

EVERYTHING STARTED BACK IN 1978...

Moustakallis was working at Limni mine with the role to define the copper and in addition, he used to supplement his income by working as a part-time butcher. After the closure of the mine, he, along with his wife Katerina, decided to set up their own business and so the first real Tavern in Polis near the square opened its doors...

A few years later, in 1990, the landlord of the building sold up and the business was forced to close. Moustakallis was then left little option but to concentrate all his efforts on his butchery business.

In 1993 Moustakallis' son Andreas built a small tavern near the original site operated by his father. Andreas and his wife Natasa continued to run the place until 1997, when they moved into a run-down mill and developed the first phase of the successful establishment we know today.

The current tavern is run by three generations of the family, whilst the 4th generation is trying to get in the industry too! There is Grandpa Moustakallis, Son Andreas and the grandson Kyriakos. We must not forget; the important roles played by the women of the family. Andrea's wife Natasa is head chef and their two daughters Simoni and Katerina play their parts in the smooth running of the operation. Alongside these people there is Andrea's nephew Pelopidas who works for the veterinary services during day time and finds time to work hard in the restaurant as well, having done so since he was 14 years old!

Although the family is the heart of the business, they could not run such a successful establishment without the help of a range of other people. Fortunately, they can rely on a team of people from the locality and across Europe to carry out the roles of waiters and waitresses. Just as importantly, the behind-the-scenes staff, in the kitchen, ensure that the service you receive is timely and, crucially, the food is excellently prepared and presented.

The restaurant is situated just off the central square in Polis Chrysochous with plentiful parking available in the municipal car park. The style of food prepared by the restaurant could be described as traditional Cypriot enhanced by a range of cosmopolitan European cuisine.

The restaurant has sufficient space both inside and out with several events such as weddings, christenings and parties taking place every year. In the cooler months the indoor area is a cosy place to eat with an open fire assuring a comforting and enjoyable environment. When the weather gets warm, eating outside is a pleasure. In 2014 the outdoor area was significantly extended to provide a raised terrace with a well-constructed garden surrounding it. All of the outside areas have ample cover from the sun during the day. To our customers amazement, the trees of passion fruit terrace were guided to grow as a massive leafy umbrella over the top seating area.

You can be assured of a warm, friendly welcome from Andreas and all of his staff whether you come for a drink or enjoy a meal chosen from the mouth-watering menu.

As Andreas always says
YOU ARE WELCOME!!!
